

14th International Conference on Social Robotics

13-16 December 2022 - Florence, Italy

The **14th International Conference on Social Robotics (ICSR 2022)** brings together researchers and practitioners working on the interaction between humans and intelligent robots and on the integration of social robots into our society. ICSR 2022 will take place in Florence as a hybrid conference on December 13th-16th, 2022. The theme of this year's conference is **Social Robots for Assisted Living and Healthcare**, emphasising on the increasing importance of social robotics in human daily living and society.

PAPER SUBMISSION

The conference welcomes original contributions describing technically rigorous scientific and research advances in the area of social robotics and AI: innovative ideas and concepts, new discoveries and improvements, novel applications on the latest fundamental advances in the core technologies that form the backbone of social robotics as well as distinguished studies and projects pertaining the social robotics and its interaction and impact in our society.

WORKSHOP SUBMISSION

Participants are invited to hold creative, innovative, and interactive workshop formats that focus on areas of active research to generate significant discussion and exchange of ideas between participants, as well as interactions between established experts and early-career researchers. We encourage state of the art programs with high level of interest, impact, creativity and innovation that will attract a broad and active audience. Also, workshops focusing on academia-industry partnership and technology transfer of robotics research are welcome, with the aim of making connections to fields outside of robotics and/or connect academia to industry.

Detailed instructions are available on the conference website: <https://www.icsr2022.it>

Organizers

General Chair: Filippo Cavallo, University of Florence, Italy

Honorary Chair: Sam Shuzhi Ge, National University of Singapore, Singapore
